No. 52, Vol. 4.

NEW WESTMINSTER, SATURDAY, AUGUST 13, 1864.

Price 6d. or 12 cts.

This Journal is published every Wednesday and Saturday morning, and is sent by Mail and Express to all parts of the Colonies, Washington Territory, Oregon, California, the Eastern Provinces and United States.

The British Columbian.

NEW WESTMINSTER, SATURDAY, AUG. 13, 1864.

EXPLORATION—EMIGRATION.

It seems almost incredible that, although six years have elapsed since the great rush to this Colony, consequent upon the discovery of rich placer diggings on the Lower Fraser, comparatively nothing is really known of the country. Here, in the capital, we are in total ignorance as to the character of the surrounding country, if we except the valley of the Fraser. There exists a sort of general and indefinite impression or presentation that we are surrounded with gold, coal and other minerals, yet, strange as it may appear, no organized or, indeed, we may say, individual effort has yet been put forth to give that presentation tangible form. And, what is true of New Westminster in this regard is more or less true of the whole Colony. A detachment of Royal Engineers was sent out in '58 and remained here till the fall of '63, and although that body of men contained all the scientific skill and material appliances for making a thorough exploration and survey of the Colony, although, during the time they were stationed here they might have explored and mapped out every square mile in British Columbia, yet, strange to say, these valuable men were cooped up in barracks or kept puttering at unskilled labor during five years and the Colony remains an unexplored and unknown region. Had a portion of these men been kept at this most important work, the benefit thereby conferred upon the Colony would indeed have been great. Those arriving in the country could then obtain in a few hours in the Land Office information which individually is entirely beyond their reach, and which it would now cost many thousands to produce. But, unfortunately for us, the Royal Engineers were not permitted, for some reason or other, to do the work. Now, that we are thrown upon our own resources, so to speak, it behooves us, instead of repining about what has not been done, to set to work and devise the best means for exploring and prospecting the country. A select committee was appointed during the late session of the Legislative Council for the purpose of considering the best means of promoting emigration, and the plan of voting considerable sums of money from the general revenue for the purpose of assisting emigration has been talked about. Now, our own opinion is that one thousand pounds judiciously laid out in prospecting the, as yet, unknown portions of British Columbia would be more conducive to its permanent benefit than ten times that amount devoted to assisting emigration. Once placed the resources and wealth of the Colony beyond a doubt, and we shall experience little difficulty in obtaining, and, what is of even greater importance, retaining, a population. Nothing has yet been done, or indeed is yet known, beyond two or three very circumscribed fields. The disposition of the masses is to follow in the wake of the hardy prospector and cluster round diggings when struck; and as we have very few prospectors—prospectors form a distinct class—so a very large proportion of our comparatively small population have fallen into the ignominious position of mere drones, and thus the resources of the country to a very great extent still lie dormant, and many leave in disgust from year to year, simply because no one has found diggings for them and because they have too little cash or too little energy to find them for themselves. Could a properly organized system of exploration be established and aided by Government all this would be changed. Men, unable or unwilling if left to themselves, would be assisted and encouraged to penetrate unknown regions and open up the way for thousands who would go in and develop the resources of the country. We publish to-day a communication upon the subject of organizing an exploration society upon a broad basis. Many of the suggestions contained in that paper are good, and will, we trust, meet with the careful consideration of the public. But we think that such a movement, on the ground of justice as well as to ensure efficiency, ought to be liberally supported from the public revenue. Were the raising of funds to devolve entirely upon those willing to subscribe we fear the effort would fall short of the mark; and not only so, but the principle would be unjust, because the few would expend their means for the promotion of that which would equally benefit all. We would not advocate the assumption of the whole financial part of it by the Government. In this,

as in most movements, it is best that the people should be stimulated to individual effort. Suppose associations were organized under an Act passed for that purpose, and the Government should provide two dollars for every one raised by local effort, it appears to us the thing might be made to work admirably. The object is a legitimate one for the expenditure of public money, just as much as roadmaking, and in one sense even more important; for, as a principle, find rich diggings and the miners will manage to get a road to them, even if the way should lie through the perpetual snows of the Rocky Mountains. It would, therefore, in our opinion at least, be a much wiser policy at the present stage of mineral development in this Colony, to spend more in searching for new diggings and less in constructing expensive roads to those already discovered. We are thoroughly convinced that were a Bill passed at the next session of the Legislature, making provision for the organization of such associations, and were considerable sums voted from the Colonial revenue every year for the promotion of the exploration of the country, it would do more for the permanent good of the Colony than will ever be attained by assisting emigration.

NEW WESTMINSTER, SATURDAY, AUG. 13, 1864.
PROGRESS AT NANAIMO.

Time was when the little town of Nanaimo was considered a dull place and its inhabitants destitute of energy or enterprise. By strangers it was regarded as a hundred years behind the age, and by the Government of the Island Colony to which it belongs its interests and requests were treated with silent contempt or vulgar insult. It is affirmed that one gentleman who sat in the House of Assembly as representative of the District of Nanaimo never once named in that House the constituency which gave him his seat; and when the people made the most reasonable request for a port of entry the Hon. Attorney-General characterized them as "a few drunken miners and rowdy sailors." But that day has passed away; and while the Douglas dynasty with its obstructive policy are sinking into merited oblivion, the enfranchised people of Nanaimo are busily developing their resources and manifesting an amount of progress second to no community in these Colonies.

For the benefit of those who are less conversant with the place of which we write we may say that Nanaimo is situated 70 miles from Victoria, 40 miles from New Westminster, and directly across the gulf from Burrard Inlet. It possesses many geographical advantages, while its natural scenery, combining land and water, mountain and vale in delightful and picturesque variety, must render it, at no distant day, a favorite resort for tourists, while the salubrious and moderate temperature of its climate will ensure a large measure of health to its inhabitants. The harbor, which is now not only a "port of entry," but a port of easy entry, is free, safe, and sufficiently commodious for the requirements of a considerable maritime community, having sufficient depth of water for the largest shipping afloat. The town itself is well surveyed and dry. Several hundred of lots have recently been sold at prices ranging up to \$5,000, and buildings, some of them elegant and costly, are going up in every direction. The moral and intellectual wants of the population—about 600 in number—are provided for by two Churches, as many Schools, and a Literary Institute and Reading-room. Very much of the present prosperity of Nanaimo, is due to the enlightened energy manifested by the Vancouver Coal Mining Company, who purchased the whole of the Nanaimo property from the Hudson Bay Company. This company have opened and are working the largest coal mine perhaps upon this coast. It is known as the "Douglas mine," and is the only one now in operation in the district. The coal is of a good quality, especially for the generation of gas and steam, and is conveyed from the pit to the wharf in large and substantial cars drawn by a powerful locomotive, upon a railroad of a mile in length, and vessels are thus loaded with great dispatch compared with that of previous years. The company own the trim little iron steamer *Fiddler*, which is now engaged in carrying lumber across the gulf from Mr. Smith's mill, on Burrard Inlet, for the construction of a magnificent quay at a more convenient point than the one at present in use.

In addition to the above there has lately been organized the "Harewood Coal Mining Company," represented in this country by McDonald & Co., Hon. Lascelles, Dr. Benson, R. Dunsmuir, Esq., and other names which are a sufficient guarantee for its efficiency. Mr. Dunsmuir, in addition to a long experience in coal mining in Scotland and elsewhere, has the advantage of a personal knowledge of coal mining on Vancouver Island, having been engaged for ten years past by the H. B. Co. in working their mines at Rupert and Nanaimo. He is thus well qualified for the position which he fills as the resident Manager of the new company. A seam of coal has been opened by this company which is 7 feet in thickness and 2 miles in width, thus giving, at a rough calculation, five million tons of coal, with more yet to be prospected. The seam lies high and nearly level, so that it can be worked without shaft or pumps, by simply running in a tunnel from the outcrop. The coal itself is of excellent quality, and the seam, as far as prospected, clean and solid, with a firm, smooth roofing of sand stone, thus obviating the necessity of the expensive process of "legging."

The capital of the Harewood Company is £100,000 sterling; £20,000 will be expended in the construction of a railway and the purchase of two locomotives and suitable cars. The railway, which is already surveyed, and will soon be laid down, will be five miles in length, and terminate on "Departure Bay," where large and commodious wharfs will be constructed. The harbor of Departure Bay is one of the best on the continent, possessing every advantage one could wish. We are informed that the company also intend putting on a line of large ships between their port and San Francisco, so as to keep that market constantly supplied with coal. A steam tug is also upon their programme, so that we may confidently assert that the population and commerce of Nanaimo will be more than doubled in the course of another year, and that in a very short period it will be a flourishing commercial and maritime city. As we recently alluded to the commercial advantages Nanaimo possesses over Victoria, it will be unnecessary now to dwell upon that point. We take a special interest in the progress of Nanaimo because we believe its interests to be more closely identified with our own than those of Victoria; and although we confidently anticipate the day when we shall be commercially as well as politically independent of the Island, yet we also look forward to the time when a very important commercial intercourse will exist between Nanaimo and this Colony.

PROCLAMATION.
BUTE INLET MASSACRE!
A REWARD OF \$250

WILL BE PAID BY GOVERNMENT, UPON AND for the apprehension and conviction of every Indian or other person concerned as principal or accessory before the fact, to the murder of any of the fourteen Europeans, who were cut off by Indians on or about the twenty-ninth and thirtieth days of April, now last past, in the Valley of the Homathco River, at Butte Inlet.
Dated Government House, New Westminster, 17th May, 1864.

By His Excellency's Command,
ARTHUR N. BIRCH,
Colonial Secretary.

COD SAVE THE QUEEN!

IN PURSUANCE OF CERTAIN RESOLUTIONS OF the Legislative Council, passed during the late session, the Governor has authorized the following Premiums to be offered with the view of developing the resources of, and stimulating industry throughout, the Colony:—

1. A Premium of FIVE HUNDRED POUNDS (£500) to be paid to any person or persons who shall be the first to show to the satisfaction of the Government that he or they have successfully worked by machinery a VEIN OF QUARTZ producing either Gold or Silver, within the Colony of British Columbia.
2. A Premium of FIVE HUNDRED POUNDS (£500) to be paid to any person or persons who shall be the first to show to the satisfaction of the Government that he or they have successfully worked any COAL MINE within the Colony of British Columbia, and have bona fide produced from such mine Two Hundred (200) tons of good Coal, and have shipped "the same to any Port beyond the limits of the Colony."
3. A Premium of FIVE HUNDRED POUNDS (£500) to be paid to any person or persons who shall prove to the satisfaction of the Government that he or they have been the first to complete in a bona fide manner the building of a VESSEL, within the Colony of British Columbia, of not less than Five Hundred (500) tons burthen.
4. A Premium of FIVE HUNDRED POUNDS (£500) to any person or persons who shall prove to the satisfaction of the Government that he or they have been the first to find any new ALLUVIAL MINING DISTRICT sufficiently extensive to give remunerative labor to Five Hundred (500) men for a period of not less than Six (6) months.

The Governor in Council to be the sole judge as to whether any of the above Premiums are to be awarded.
By His Excellency's command,
ARTHUR N. BIRCH.

REAL ESTATE AGENCY!

THE SUBSCRIBER, BEING THE PIONEER OF this city, is well acquainted with every town and suburban Lot, and most of the rural Lots at present surveyed in this District. He has made it a part of his business during the past five years, to examine Lots, and has had considerable experience in purchasing and selling Real Estate, and is well posted in regard to the actual value of Land.

Parties who are desirous of purchasing or selling will find it to their advantage to place the same in his hands.

All business in the GENERAL AGENCY line attended to. Charges Moderate.

WILLIAM CLARKSON,
General Agent and Auctioneer.

Poetry.
On the Death of Donald Monroe.

The following appeared in the *Scottish American* respecting the death of Donald Monroe in the interior of this Colony, under peculiarly melancholy circumstances, which were detailed at the time in these columns. We may mention that the "tin cup" to which allusion is made, is in our possession:—

LYING DOWN TO DIE.
We stated lately that the body of a man was found near the Bear River, British Columbia, wrapped in a blanket and the head pillow-
ed on a log. Near at hand lay a tin cup, on which was scratched—
"Donald Monroe; lost in the wood; from Inverness, Scotland; born June, 1823." Finding death inevitable, the deceased, before lying down to die, had scratched this record, probably with a pin. An English lady sends us the following lines on this strange and melancholy incident:

No friendly hand was near to close
His eyelids for that last repose;
Upon his brow the death damp lay,
But no one wiped it thence away.
Removed from every human eye,
The wanderer laid him down to die,
The track was lost, and never more
Would he the forest depths explore.
Too late had strangers passed the spot,
And learned the weary traveler's lot.
How hard a couch his limbs had pressed,
Ere "the worn spirit sunk to rest!"
With fearful eyes and softened tone,
They spoke of him who died alone!
But was no record left for those,
Who knew him once as friends or foes?
No proof of his last thoughts did fly,
Before he heard his latest sigh.
Yes; ere he closed his life of care;
He thought of home and loved ones there;
And in his dying hour would trace
The story of his name and race.
Strange—a rude cup the record bore—
Monroe's life's pilgrimage is o'er!
Alas! what tempted him to roam
From his own mountain land and home?
Perchance a widowed mother's prayer
Still rose for him who slumber'd there;
Or wife still yearned for his caress,
Whose grave is in the wilderness.
But vain the attempt to penetrate
The history of the wanderer's fate;
Nor deem because he died alone,
He suffering ready for errors soon.
Bright angels may have linger'd near,
His awful solitude to cheer:
Perhaps, like Jacob, he descried
The gate of Heaven before he died.
The dust which sleeps 'neath foreign skies
May yet a glorious body rise;
And kindred spirits round the throne,
The wanderer greet who died alone.

Lord Elgin and Sir Rowland Hill.

The following messages were read in both Houses on the 6th June, and concurred in by the Commons on the 10th, and by the Lords on the 13th. In introducing in the House of Lords the proposal to vote Lady Elgin a pension of £1,000 a year, Earl Granville spoke at considerable length, reviewing both the literary and political career of that great and good man, and paying the highest compliment to his memory. He was followed by the Earl of Ellenborough and the Earl of Derby in a similar strain. Lady Elgin also receives an annuity of £1,000 from the Indian Government. Those of our readers who resided in Canada during Lord Elgin's administration will be gratified to know that his distinguished and eminently useful career is not overlooked by the nation to which he rendered such signal service:—

"Victoria Regina.—Her Majesty, taking into consideration the distinguished services performed throughout a long series of years by the late James Earl of Elgin and Kincardine, Her Majesty's Viceroy and Governor-General in India, and being desirous, in recognition of such services, to confer some signal mark of her favor upon his widow, Mary Louisa Countess of Elgin and Kincardine, recommends to the House of Lords to concur in enabling Her Majesty to make provision for securing to the Countess of Elgin a pension of £1,000 per annum for the time of her natural life."

"Victoria Regina.—Her Majesty taking into consideration the eminent services of Sir Rowland Hill, the late Secretary of the General Post-office, in devising and carrying out important improvements in the postal administration, and desirous, in recognition of such services, to confer some signal mark of her favor upon him, recommends to the House of Lords to concur in enabling Her Majesty to grant Sir Rowland Hill the sum of £20,000."

Irish Church.—A thick return has been presented to Parliament giving particulars of every parish in Ireland. The general result is that there were at the last census 698,357 members of the Established Church in Ireland—men, women, and children—and 596,920 Protestant Dissenters; and that the gross income of the bishoprics, dignities, and livings of the Established Church in Ireland amounts to £586,428, and the net income to £448,943.—*Times*.

The United States produce 20,000 pianos per annum.

BENSON'S WATCHES AND CLOCKS.

WATCH AND CLOCK MAKER, BY SPECIAL APPOINTMENT, TO HIS ROYAL HIGHNESS THE PRINCE OF WALES.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1863.

"As a sample of English clock-work on a large scale, the works of this are probably the finest finished that have ever been seen in this country. No Chronometer could be fitted with more perfect work than these."—*Standard*, June 17, 1862.

"Some of them are of great beauty; and if the English watch-trade only follow up with the same spirit and success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands."—*Times*, June 23, 1862.

"Ranged around the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs engraved upon them. The movements are of the finest quality, which the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspection."—*Illustrated London News*, November 8, 1862.

Watches, adapted for every class, climate and country, wholesale and retail. Chronometer, Duplex, Lever, Horizontal, Vertical, Repeating, Centre Seconds, Keyless, Astronomical, Reversible and Chronograph, from 200 guineas to 3 guineas each.

THE SUFFERER'S BEST FRIEND.

HOLLOWAY'S PILLS.

All Disorders affecting the Liver,
Stomach and Bowels.

These Pills can be confidently recommended as the most simple and certain remedy for indigestion, flatulency, acidity, heartburn, colic, constipation, and all the many maladies resulting from disordered stomach or bowels. In all diseases it is of primary importance to set the stomach right. These Pills are purifiers, alteratives, and strengtheners of the stomach. They may be taken under any circumstances. Though powerfully tonic, and satisfactorily aperient, they are mild in their operation, and beneficial to the whole system.

Weakness and Debility, Nervous Irritability.

The wholesale effect exercised by these admirable Pills over the blood and fluids generally is like a charm in dispelling low spirits, and restoring cheerfulness. Their general aperient qualities well fit them for a domestic medicine, particularly for females of all ages and periods of life. They never betray any disagreeable, irritating qualities; they quickly eject all impurities from the system, and regulate every function of the body, giving wonderful tone and energy to weak and debilitated persons, while they brace and strengthen the nervous system in a most extraordinary manner.

To Regain Health, Strength and Vigour.

Whenever persons find themselves in that state termed a "little out of health," and there are so many causes at work to shorten life, it is necessary that Holloway's Pills, the finest purifier of the blood ever known, should be at once taken, as they not only rid both solids and fluids of all morbid matters, but regulate all disordered actions, and strengthen the frame in a most extraordinary manner.

Old Coughs, Colds and Asthmatical Affections.

These Pills, assisted in their action by rubbing Holloway's Ointment very effectually twice a day upon the throat and chest, and keeping those parts covered with the preparation, will be found the most effectual remedy for asthma, coughs, colds, bronchitis, and influenza. These remedies tranquillize the hurried breathing, soothe the irritated air-tubes, and assist in dislodging the phlegm which stops up the air-passages. This treatment has proved wonderfully efficient in not only curing old settled colds, but asthma of many years standing, and even when patients who were in so bad a state as not able to lie down on their beds lest they be choked with phlegm.

Derangement and Distention of the Bowels, Flatulency, Diarrhoea and Dysentery.

Any symptoms of the above complaints should be immediately met by appropriate doses of these Pills, according to the printed directions: delay may be followed by disastrous consequences. These Pills are a powerful remedy for all the ailments of the alimentary canal, they secure the thorough digestion of the food, and act most kindly on the stomach, liver, bowels and kidneys. As a household medicine they are unrivalled, and should always be at hand.

Very Important, of Costiveness Beware.

Rarely but little notice is taken of costiveness, yet, at certain periods, it is a sure sign that danger is near. All who are seized with apoplexy and paralysis, have previously suffered from costiveness. In the former case the blood flies to the head, a small vein is ruptured of the brain; and we know the rest. Let wives counsel their husbands, and husbands their wives, never to go to bed a second night, if the bowels have not been properly moved during the day, particularly if they feel heavy and drowsy. A few gentle doses of these fine Pills will regulate the circulation of the blood, and all dangerous symptoms.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague	Female Irregularities	Retention of Urine
Asthma	Fever of all kinds	Scrofula, or King's Evil
Bilious Complaints	Fits	Sore Throats
Blotches on the skin	Gout	Stomach and Gravel
Bowel Complaints	Head-ache	Secondary Symp- toms
Colic	Indigestion	Tic Douloureux
Constipation of the bowels	Inflammation	Tumours
Consumption	Jandice	Ulcers
Debility	Liver Com- plaints	Venerical Affections
Dropsy	Lumbago	Worms of all kinds
Erysipelas	Piles	Weakness, from whatever cause, &c. &c.
	Rheumatism	

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London; also by all respectable Druggists and Dealers in medicines throughout the civilized world, at the following prices:—Is. 12d., 2s. 9d., 4s. 6d., 11s., 22s., and 35s. each Box.

ALL CURES MADE EASY!!

HOLLOWAY'S OINTMENT.

Bad Legs, Ulcerous Sores, Bad Breasts and Old Wounds.

No description of wound, sore, or ulcer can resist the healing properties of this excellent Ointment. The worst cases readily assume a healthy appearance, when ever this medicament is applied; sound, flesh springs up from the bottom of the wound, inflammation of the surrounding skin is arrested, and a complete and permanent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflammation.

These distressing and weakening diseases may with certainty be cured by the sufferers themselves, if they will use Holloway's Ointment, and closely attend to the printed instructions. It should be well rubbed upon the neighbouring parts, when all chafing matter will be removed. A poultice of bread and water may sometimes be applied at bed time with advantage; and most scrupulous cleanliness must be observed. If those who read this paragraph will bring it under the notice of such of their acquaintances whom it may concern, they will render a service that will never be forgotten, as a cure is certain.

Rheumatism, Gout & Neuralgia.

Nothing has the power of reducing inflammation and subduing pain in these complaints in the same degree as Holloway's cooling Ointment and purifying Pills. When used simultaneously they drive all inflammation and depravities from the system, subdue and remove all enlargement of the joints, and leave the sinews and muscles lax and uncontracted. A cure may always be effected, even under the worst circumstances, if the use of these medicines be persevered in.

Eruptions, Scald Head, Ringworm & other Skin Diseases.

After fomentation with warm water, utmost relief and speediest cure can be readily obtained in all complaints affecting the skin and joints, by the simultaneous use of the Ointment and Pills. But it must be remembered that nearly all skin diseases indicate the depravity of the blood and derangement of the liver and stomach, consequently, in many cases, time is required to purify the blood, which will be effected by a judicious use of the Pills. The general health will be readily improved, although the eruption may be driven out more freely than before, and which should not be promoted; perseverance is necessary.

Sore Throats, Diphtheria, Quinsey, Mumps & all other Derangements of the Throat.

On the appearance of any of these maladies the Ointment should be well rubbed at least three times a day upon the neck and upper part of the chest, so as to penetrate to the glands, as salt is forced into meat; this course will at once remove inflammation and ulceration. The worst cases will yield to this treatment by following the printed directions.

Scrofula or King's Evil and Swelling of the Glands.

This class of cases may be cured by Holloway's purifying Pills and Ointment, as their double action upon the blood and strengthening the system, renders them more suitable than any other remedy for all complaints of a scrofulous nature. As the blood is impure the liver, stomach and bowels, being much deranged, require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs.	Chapped Hands.	Scalds.
Bad Breasts.	Contracted and Stiff Joints.	Sore Nipples.
Burns.	Elephantiasis.	Sore Throats.
Bites of Mosquitoes.	Fistulas.	Skin Diseases.
and Sand-Flies.	Gout.	Scurvy.
Coccy.	Glandular Swellings.	Sore-heads.
Chicago-foot.	Ulcers.	Tumors.
Corns (soft).	Lumbago.	Ulcers.
Cancers.	Piles.	Wounds.
Chilblains.	Rheumatism.	Yaws.

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London; and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—Is. 12d., 2s. 9d., 4s. 6d., 11s., 22s., and 35s. each Pot.
